Across The Board

A method of wagering on a horse to win, place and show. The player collects if the horse finishes first, second or third.

Added Money

That money which is added to a purse by the racing association (track), or by sponsors, state-bred programs or other funds added to those monies gathered by nomination, entry, sustaining and other fees coming from the horsemen.

Age of a Horse

Shall be computed on the basis of a calendar year. Of racing animals, all race horses have January 1 of the year they were born as their official birth date, regardless of their foaling date. The South American countries of Argentina and Brazil shall be computed on July 1 for show and race purposes.

Allowance Race

A race in which eligibility is based upon amounts of money won or earned, or number of races a horse has won over a specified time.

Also-Eligible

A horse officially entered, but not permitted to start unless the field is reduced by scratches at scratch time. Also, the next preferred nonqualifier for the finals or consolation from a set of elimination or time trials which will become eligible in the event a finalist is scratched by the stewards for rule violation or is otherwise ineligible.

Also-Ran

Used to describe a horse that did not finish in the money (first, second or third).

Assistant Starter

The employee of the racetrack who, under direct supervision of the starter, helps place the starting
gate for a race, leads horses into the gate, helps riders and handles horses while in the gate until start is given. Will also help with any equipment change or repair at gate and with the "schooling" of horses in the mornings.

**At The Post**

A term commonly used signifying the horses have arrived and are ready to be loaded into the starting gate.

**Backside**

The stable and training area of a racetrack.

**Backstretch**

Straight or far-side of track between turns.

**Bandages**

For horses these come in two forms; 1) Standing-used in stall at rest for therapeutic purposes (i.e., poultice, brace, liniments); and 2) Racing-using Vetrap or ace type bandages for support of tendons and to prevent a horse from "running down" or burning his heels on the track surface as legs tire and strain more.

**Bearing In (or Out)**

A horse that moves or lugs inward (to its left toward the inside rail) or outward while racing. May be due to weariness, infirmity, lack of experience, whip used by rider or rider's inability to control mount.

**Best Bet**

Term used by track handicappers, tip sheets, selectors, etc., to signify the horse they feel most likely to win that day.

**Blacktype**

Bold-face type used in sales catalogs to distinguish horses who have won or placed in a stakes. If a horse's name appears in all upper case bold-face type, he has won one stakes race. If it appears in upper/lower case bold-face type, he has placed in at least one stakes.

**Blanket Finish**

Finish in which two or more horses are very close at finish (one can "Throw a blanket over them"). Very common in American Quarter Horse racing.

**Bleeder**
